## Social Science Replication Platform

.

This form is meant to guide reproducers to information about accessing proprietary or sensitive data. The form must be filled out for each confidential data source, in our case it's only for SEVIS raw data.

As part of a [SSRP reproduction](#), this form can serve two purposes :

- **Assessment stage:** in this case, the form is used to assess informations provided by the study authors in the original reproduction package.
- **Improvement stage:** in this case the form is used to identify all specific informations that has been added during improvement stage.

In our case it's about adding informations on access to confidential SEVIS raw data :

- ☒ SSRP reproduction
  - ☐ **Assessment** of original materials
  - ☒ **Improvement** suggested by reproducer
